

March 23, 2020

VigorOx® 15/10 Antimicrobial Agent is registered with the US Environmental Protection Agency to be used as a hard surface disinfectant for SARS-CoV-2 under the Emerging Viral Pathogens exemption.

Emerging Viral Pathogens Claim – Hard, non-porous surfaces

This product qualifies for emerging viral pathogen claims per the EPA's 'Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens Not on EPA-Registered Disinfectant Labels' when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:

- Enveloped Viruses
- Large Non-Enveloped Viruses

For an emerging viral pathogen that is a/an...	...following the directions for use for the following organisms on the label:
Enveloped virus	Norovirus
Large, non-enveloped virus	Norovirus

VigorOx® 15/10 Antimicrobial Agent has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, non-porous surfaces. Therefore, **VigorOx® 15/10 Antimicrobial Agent** can be used against SARS-CoV-2 when used in accordance with the directions for use against Norovirus on hard, non-porous surfaces.

COVID-19 is caused by SARS-CoV-2. **VigorOx® 15/10 Antimicrobial Agent** kills similar viruses and therefore can be used against SARS-CoV-2 when used in accordance with the directions for use against Norovirus on hard, non-porous surfaces.

Refer to the **CDC** website at <https://www.cdc.gov/coronavirus/2019-nCoV/index.html> for additional information.
